PERMIT FOR THE STORAGE OF HAZARDOUS WASTE

U.S. ENVIRONMENTAL PROTECTION AGENCY
REGION 10
1200 SIXTH AVENUE, WCM-121
SEATTLE, WASHINGTON
(206) 553-4153

Issued in accordance with the applicable provisions of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976 (RCRA) and the Hazardous and Solid Waste Amendments of 1984 (HSWA); and the regulations promulgated thereunder in Title 40 of the Code of Federal Regulations (CFR).

ISSUED TO: U.S. Bonneville Power Administration, Ross Complex
5411 NE Hwy 99
PO Box 491
Vancouver, Washington 98666-0491
WA1 891 406 349

This Permit is effective as of March 15, 2001, and shall remain in effect until March 14, 2011, unless revoked and reissued (40 CFR §270.41), terminated (40 CFR §270.43), or continued in accordance with 40 CFR §270.51 and permit condition I.G herein.

ISSUED BY: THE U.S. ENVIRONMENTAL PROTECTION AGENCY

Richard Albright, Director
Office of Waste and Chemicals
Management

LIST OF ATTACHMENTS

The following listed documents are incorporated, in their entirety, by reference into this Permit, for informational purposes only. Some of the documents are excerpts from the Permittee's Dangerous Waste Permit Application (submitted October 21, 1999, amended April 5, 2000, and amended July 27, 2000).

- Attachment AA Section B-1a and B-2 of the Permit Application, including Figures B-1and B-2;
- Attachment BB Air emissions sections for Subpart CC Rule and for the 300 hour exemption for the Subpart BB rule, Sections D-8b and D-8c of the Permit Application.
- Attachment CC Figure D-11 and Table D-4 of the Permit Application, showing the hazardous waste management areas in the HazMat building and listing the on-site recycling units, respectively.

INTRODUCTION

Permittee: U.S. Bonneville Power Administration, Ross Complex
Identification Number: WA1 89140 6349

Pursuant to the Resource Conservation and Recovery Act of 1976, as amended, 42 U.S.C. § 6901 et seq., (RCRA), and the Hazardous and Solid Waste Amendments of 1984 (HSWA), and regulations promulgated thereunder by the U.S. Environmental Protection Agency (EPA) (codified and to be codified in Title 40 of the Code of Federal Regulations); a permit is hereby issued.

This Permit, issued in accordance with 40 CFR §271.19(f) in conjunction with the Permit for hazardous waste storage facility issued by the State of Washington Department of Ecology, constitutes the RCRA permit for this facility.

The Permittee shall comply with all terms and conditions set forth in this Permit. This Permit consists of the conditions contained herein, and all applicable federal regulations contained in 40 CFR Parts 260 through 266, Part 268 and Part 270.

Applicable federal regulations are those that are in effect on the date of final administrative action on this Permit and any self implementing statutory provisions and related regulations which, according to the requirements of HSWA, are automatically applicable to the Permittee's hazardous waste management activities, notwithstanding the conditions of this Permit.

The Permittee must maintain any documents at the facility which are referenced by the Agency in any condition of this Permit, even though such referenced documents may not be physically contained in the permit.

This Permit is based upon the administrative record, as required by 40 CFR §124.9. The Permittee's failure in the application or during the permit issuance process to disclose fully all relevant facts, or the Permittee's misrepresentation of any relevant facts at any time, shall be grounds for the termination or modification of this Permit and/or initiation of an enforcement action, including criminal proceedings. The Permittee shall inform the Administrator of any deviation from permit conditions or changes in the information on which the

application is based which would affect the Permittee's ability to comply, or actual compliance, with the applicable regulations or permit conditions or which alters any condition of this Permit in any way. The Permittee shall also promptly submit such facts or corrected information to the appropriate persons.

DEFINITIONS

For purposes of this Permit, the following definitions shall apply:

- a. All definitions contained in 40 CFR §§124.2, 260.10, 270.2, 265.1081 and Part 264 are hereby incorporated, in their entirety, by reference into this Permit, except that any of the definitions used below shall supersede any definition of the same term given in 40 CFR §§124.2, 260.10, 270.2, 265.1081 and Part 264. Where terms are not defined in the regulations or the permit, the meaning associated with such terms shall be defined by a standard dictionary reference or the generally accepted scientific or industrial meaning of the term.
- b. **"Administrator"** means the Administrator of the U.S. Environmental Protection Agency (Agency) or a designated representative. The Director of the Office of Waste and Chemicals Management, U.S. Environmental Protection Agency Region 10, (with the address as specified on page one of this Permit), is a duly authorized and designated representative of the Administrator for purposes of this Permit.
- c. The term **"Agency"** shall mean the U.S. Environmental Protection Agency, Region 10 (with the address as specified on page one of this Permit).
- d. The terms **"daily"**, **"normal working day"**, and **"business day"** shall mean every calendar day, except non-waste handling weekends and holidays that do not exceed three (3) days consecutively.
- e. The term **"Department"** shall mean the Washington Department of Ecology.
- f. The terms **"Facility"** or **"Site"** shall mean all contiguous

land, and structures, other appurtenances, and improvements on the land, used for treating, storing, or disposing of hazardous waste. A facility may consist of several treatment, storage, or disposal operational units (e.g., one or more landfills, surface impoundments, or combinations of them).

- g. **"Hazardous waste management unit"** means that part of the Permittee's HazMat building used to manage hazardous waste, and includes, but is not limited to, Rooms 100, 102, 103 and 104, and the load/unload area. The location and description of the HazMat building is set forth in Attachments AA and CC of this Permit.
- h. **"Part B Application"** means the application submitted by Permittee to demonstrate compliance pursuant to 42 U.S.C. 3251 et seq. and 40 CFR Parts 124 and 270. Portions of the Part B Application are included in this Permit as attachments.
- i. The term **" Permit"** shall mean the Permit issued by the U.S. Environmental Protection Agency, Region 10, pursuant to 42 U.S.C. §6901 et seq. and 40 CFR Parts 124 and 270.
- j. In cases where the Permittee is required pursuant to this Permit to comply with a specific provision of 40 CFR Part 264, and that provision refers to **"Regional Administrator"** or **"Director,"** the term **"Regional Administrator"** or **"Director"** shall be interpreted to mean the Director, Office of Waste and Chemicals Management, EPA Region 10.
- k. **"State"** means the State of Washington.

PART I - STANDARD CONDITIONS

I.A. EFFECT OF PERMIT

- I.A.1. Subject to 40 CFR § 270.4, compliance with this Permit constitutes compliance, for the purposes of enforcement, with certain portions of Subtitle C of RCRA. Specifically, this Permit covers those federal HSWA requirements that apply to the Permittee and are not yet authorized for inclusion in the state's authorized program.
- I.A.2. The Permittee shall hold harmless and indemnify the Agency, and its officers, employees, and agents from any claim, suit, or action arising from the activities of the Permittee or its contractors, agents, or employees under this Permit.

I.B. PERSONAL AND PROPERTY RIGHTS

Issuance of this Permit does not convey any property rights or any exclusive privilege, nor does issuance of the permit authorize any injury to persons or property, any invasion of other private rights, or any infringement of federal, state or local laws or regulations. [40 CFR 270.30(g) and 270.4(b) and c(c)]

I.C. PERMIT ACTIONS

- I.C.1. This Permit may be modified, revoked and reissued, or terminated for cause by the Agency as specified in 40 CFR §§270.41, 270.42, and 270.43.
- I.C.2. The filing of a request for a permit modification, or revocation and reissuance, or termination of this Permit, or a notification of planned changes or anticipated noncompliance on the part of the Permittee, shall not stay the applicability or enforceability of any permit condition.
- I.C.3. This Permit may be renewed as specified in 40 CFR § 270.30(b). Administrator review of any application for a permit renewal will consider improvements in the state of control and measurement technology, as well as changes in applicable

Permit No. WA1 89140 6349
Expiration Date: March 15, 2011
Page 7

regulations.

- I.C.4. Permit modification at the request of the Permittee must comply with procedures and other requirements of 40 CFR § 270.42.

I.D. SEVERABILITY

- I.D.1. The conditions of this Permit are severable; and if any provision of this Permit, or the application of any provision of this Permit to any circumstance, is held invalid, the application of such provision to other circumstances and the remainder of this Permit shall not be affected thereby. Invalidation of any federal statutory or regulatory provision which forms the basis for any condition of this Permit does not affect the validity of any other federal statutory or regulatory basis for said condition. [40 CFR 124.16(a)(2)]
- I.D.2. In the event that a condition of this Permit is stayed for any reason, the Permittee shall comply with the related applicable and relevant interim status standards in 40 CFR Part 265, for that stayed condition, until final resolution of the stayed condition, unless compliance with the related applicable and relevant interim status standards would be technologically incompatible with compliance with other conditions of this Permit which have not been stayed.

I.E. DUTY TO COMPLY

- I.E.1. The Permittee shall comply with all conditions of this Permit, except that the Permittee need not comply with the conditions of this Permit to the extent and for the duration such noncompliance is authorized in an emergency permit (issued under 40 CFR §270.61). Any permit noncompliance, except under the terms of an emergency permit, constitutes a violation of RCRA, as amended by HSWA, and is grounds for enforcement action, permit termination, modification, or revocation and reissuance of the permit and/or denial of a permit renewal application. [40 CFR 270.30(a)]

I.E.2. Compliance with the terms of this Permit does not constitute a defense to any action brought under Sections 3007, 3008, 3013, and 7003 of RCRA (42 U.S.C. §§ 6927, 6928, 6934 and 6973), Section 106(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) [42 U.S.C. §9606(a)], as amended by the Superfund Amendments and Reauthorization Act of 1986, or any other federal or state law governing protection of public health or the environment.

I.F. DUTY TO REAPPLY

If the Permittee wishes to continue an activity regulated by this permit after the expiration date, or if the Permittee is required by the Department or EPA to continue post closure care or corrective action after the expiration date, the Permittee shall apply for and obtain a new permit. Such application shall be submitted at least one hundred and eighty (180) calendar days before the expiration date, and shall include all applicable information described in 40 CFR Sections 270.13 through 270.21.

I.G. CONTINUATION OF EXPIRING PERMIT

This Permit and all conditions herein shall continue in force and effect under Title V of the U.S.Code, Section 558(c) until the effective date of a new permit or permit denial, provided the Permittee complies with 40 CFR 270.51(a) or provided the EPA requires the Permittee to continue post-closure care or corrective action to protect human health or the environment.

I.H. NEED TO HALT OR REDUCE ACTIVITY NOT A DEFENSE

It shall not be a defense for the Permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this Permit. [40 CFR 270.30(d)]

I.I. DUTY TO MITIGATE

In the event of noncompliance with this Permit, the

Permit No. WA1 89140 6349
Expiration Date: March 15, 2011
Page 10

Permittee shall take all reasonable steps to minimize releases to the environment resulting from the noncompliance, and shall carry out such measures as are reasonable to prevent significant adverse impacts on human health or the environment. [40 CFR 270.30(d)]

I.J. PROPER OPERATION AND MAINTENANCE

The Permittee shall, at all times, operate and maintain all facilities and systems of treatment, monitoring and control (and related appurtenances) which are installed or used by the Permittee so as to achieve compliance with the conditions of this Permit. Proper operation and maintenance includes effective performance, adequate funding, adequate operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities, or similar systems only when necessary to achieve and maintain compliance with the conditions of this Permit.

[40 CFR 270.30(e)]

I.K. DUTY TO PROVIDE INFORMATION

The Permittee shall furnish to the Administrator, within a specified time, any relevant information which the Administrator may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this Permit, or to determine compliance with this Permit. The Permittee shall also furnish to the Director and Administrator, upon request, copies of records required to be kept by this Permit. [40 CFR 270.30(h) and 264.74(a)]

I.L. INSPECTION AND ENTRY

Pursuant to 40 CFR 270.30(i) the Permittee shall allow the Administrator, or his/her authorized representatives, upon the presentation of credentials and other documents, as may be required by law, to:

- I.L.1. Enter at reasonable times upon the Permittee's premises, where a regulated facility or activity is located or conducted, or where records are kept under the conditions of this Permit;
- I.L.2. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this Permit;

Permit No. WA1 89140 6349
Expiration Date: March 15, 2011
Page 12

- I.L.3. Inspect at reasonable times any portion of the facility, equipment (including monitoring and control equipment), practices, or operations regulated or required under this Permit; and
- I.L.4. Sample or monitor, at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by RCRA or state law, any substances or parameters at any location.

I.M. MONITORING AND RECORDS

- I.M.1. The Permittee shall retain records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation), copies of all reports required by this Permit, and records of all data used to complete the application for this Permit, for a period of at least three years from the date of the sample, measurement, report, certification, or recording unless a longer retention period is required by other conditions of this Permit. This three year period may be extended by the Administrator by request in writing to the Permittee and is automatically extended during the course of any unresolved enforcement action regarding this facility. [40 CFR 264.74 and 270.30(j)]
- I.M.2. Records of monitoring information shall include:
 - I.M.2.a. The date, exact place, and time of sampling or measurements;
 - I.M.2.b. The name, title, and affiliation of the individual(s) who performed the sampling or measurements;
 - I.M.2.c. The date(s) analyses were performed;

- I.M.2.d. The analytical techniques or methods used; and
- I.M.2.e. The results of such analyses.
- I.M.3. The Permittee may substitute analytical methods that are equivalent to those specifically approved for use in this Permit in accordance with the following conditions:
 - I.M.3.a. The Permittee submits to the Administrator a request for substitution of an analytical method(s) which is equivalent to the method(s) specifically approved for use in this Permit. The request shall provide information demonstrating that the proposed method(s) is equal or superior to the analytical method(s) requested to be substituted in terms of sensitivity, accuracy, and precision (i.e., reproducibility).
 - I.M.3.b. The Administrator notifies the Permittee in writing by certified mail or hand delivery that the substitution of the analytical method(s) is approved. Such approval shall not require a permit modification under 40 CFR §270.41 or 40 CFR §270.42.

I.N. REPORTING PLANNED CHANGES

The Permittee shall give notice to the Administrator as soon as possible of any planned physical alterations or additions to the portions of the facility subject to this Permit.[40 CFR 270.30(1)(1)]

I.O. ANTICIPATED NONCOMPLIANCE

The Permittee shall give advance notice to the Administrator of any planned changes in the permitted facility or activity that might result in noncompliance with permit requirements. [40 CFR 270.30(1)(2)]

I.P. TRANSFER OF PERMIT

This Permit is not transferable to any person, except after notice to the Administrator and in accordance with 40 CFR 270.40(b). The Administrator may require modification or revocation and reissuance of the Permit pursuant to 40 CFR §270.40. Before transferring ownership or operation of the facility during its operating life, the Permittee must notify the new owner or operator in writing of the requirements of 40 CFR Parts 264 and 270 of this Permit and at the same time shall send a copy of such notice to the Administrator. [40 CFR.264.12(c) and 270.30(1)(3)]

I.Q. TWENTY-FOUR HOUR REPORTING

I.Q.1. Pursuant to 40 CFR 270.30(1)(6), the Permittee shall verbally report to the Agency (at (206) 553-1847) any noncompliance with this Permit that might endanger human health or the environment within 24 hours from the time the Permittee becomes aware of the noncompliance. The report shall include:

I.Q.1.a. Information concerning release of any hazardous waste or hazardous constituent that may cause an endangerment to public drinking water supplies; and,

I.Q.1.b. Any information of a release or discharge of hazardous waste, or a fire or explosion at or from the facility, which could threaten human health or the environment outside the facility. The description of the occurrence and its cause shall include:

I.Q.1.b.i. Name, address, and telephone number of the owner or operator;

I.Q.1.b.ii. Name, address, and telephone number of the facility;

I.Q.1.b.iii.

Date, time, and type of incident;

I.Q.1.b.iv.

Name and quantity of material(s) involved;

I.Q.1.b.v.

The extent of injuries, if any;

I.Q.1.b.vi.

An assessment of actual or potential hazards to the environment and human health inside and outside the facility, where this is applicable;

I.Q.1.b.vii.

Estimated quantity and disposition of recovered material that resulted from the incident; and,

I.Q.1.b.viii.

Any other information necessary to fully evaluate the situation and to develop an appropriate course of action.

I.Q.2. Within five (5) calendar days of the time the Permittee becomes aware of noncompliance that might endanger human health or the environment, the Permittee shall provide to the Administrator a written submission. The written submission shall contain a description of the noncompliance and its cause; the period of noncompliance including exact dates and times; the anticipated time noncompliance is expected to continue if the noncompliance has not been corrected; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the noncompliance. The Administrator may waive the five (5) calendar day written notice requirement in favor of a written report within fifteen (15) calendar days.

I.R. OTHER NONCOMPLIANCE

The Permittee shall report to the Administrator all other instances of noncompliance with this Permit not reported under permit conditions I.Q and II.C.6. of this Permit at the time monitoring reports are submitted. The reports shall contain the applicable information

Permit No. WA1 89140 6349
Expiration Date: March 15, 2011
Page 17

listed in permit condition I.Q. of this Permit. [40 CFR
270.30(1)(10)]

I.S. OTHER INFORMATION

Whenever the Permittee becomes aware that it failed to submit any relevant facts in the Permit Application, or submitted incorrect information in a Permit Application or in any report to the Administrator, the Permittee shall submit within fourteen (14) days of becoming aware of such deficiency or inaccuracy, such facts or information to the Administrator. [40 CFR 270.30(1)(11)]

I.T. SIGNATURE AND CERTIFICATION

Failure to submit the information required in this Permit, or falsification or misrepresentation of any submitted information, is grounds for termination of this Permit, in accordance with 40 CFR § 270.43. The Permittee shall ensure that all plans, reports, notification, and other submissions to the Administrator, required in this Permit, are signed and certified, in accordance with 40 CFR § 270.11 and 270.30(k). One copy of each of these plans, reports, notifications or other submissions shall be submitted to EPA and sent by certified mail, Federal Express, or hand delivered to the following address:

Director, Office of Waste and
Chemicals Management (WCM-121)
U.S. Environmental Protection Agency Region 10
1200 Sixth Avenue
Seattle, WA 98101

I.U. CONFIDENTIAL INFORMATION

Any information submitted by the Permittee to the Administrator may be claimed as confidential by the Permittee in accordance with the applicable provisions of 40 CFR 260.2 and 270.12.

PART II - GENERAL FACILITY CONDITIONS

II.A. OPERATION OF FACILITY

The Permittee shall maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, groundwater, or surface water which could threaten human health or the environment. [40 CFR 264.31]

II.B. EQUIVALENT MATERIALS/INFORMATION

If certain equipment, materials, and administrative information (such as names, phone numbers, addresses) are specified in this Permit, the Permittee is allowed to use an equivalent or superior. Use of such equivalent or superior items shall not be considered a modification of the permit, but the Permittee must place in the operating record (prior to the institution of such revision) the revision, accompanied by a narrative explanation, and the date the revision became effective. The Agency may judge the soundness of the revision during inspections of the facility and take appropriate action. The format of tables, forms, and the orientation of furniture on figures are not subject to the requirements of this Permit, and may be revised at the Permittee's discretion.

II.C. WASTE MINIMIZATION

- II.C.1. In accordance with 40 CFR § 264.73(b)(9), the Permittee must place a certification in the operating record on an annual basis that:
- a. A program is in place to reduce the volume and toxicity of hazardous waste generated to the degree determined by the Permittee to be economically practicable; and
 - b. Proposed methods of treatment, storage and disposal are those practicable methods currently available to the Permittee which minimize the present and future threat to human health and the environment.

- II.C.2. During even numbered years, the Permittee must include information specified in 40 CFR § 264.75 (h) and (i) in annual reports required by WAC 173-303-390(2).

II.D. RECORD KEEPING AND REPORTING

- II.D.1. In addition to the record keeping and reporting requirements specified elsewhere in this Permit, the Permittee must comply with all the applicable notification, certification, and record keeping requirements described in 40 CFR § 268.7.
- II.D.2. The Permittee must maintain a written operating record at the Facility consisting of records kept for the length of time specified below. The record can be a compilation of various documents. Also the Permittee must record all information referenced in this Permit in the operating record within 48 hours of the information becoming available. The operating record shall include, but is not limited to, the information listed below:
- a. The following records must be maintained until final closure of the hazardous waste management unit (and ancillary activities) and corrective action are complete and certified:
 - 1) Certifications pursuant to 40 CFR § 264.73(b)(9), Annual Waste Reduction Plan;
 - 2) Monitoring, testing, or analytical data and corrective action required by 40 CFR §§ 264.1035 and 264.1064;
 - 3) Up-to-date records identifying, either by waste or location (area or group), the equipment that contains or contacts hazardous waste with an organic concentration of at least 10 percent by weight for less than 300 hours per calendar year;

- b. The following records must be maintained for a minimum of five (5) years. Pursuant to 40 CFR § 264.74(b) this time period is extended automatically during the course of any unresolved enforcement action regarding the facility or as requested by the Administrator.
 - 1) Operation and maintenance records and reports prepared pursuant to this Permit;
 - 2) Progress reports and any required notifications prepared pursuant to this Permit and not covered by another reporting requirement;
 - 3) Records documenting that equipment subject to 40 CFR Part 264 Subpart BB is used for less than 300 hours a year;
- c. The following records must be maintained for a minimum of three (3) years. Pursuant to 40 CFR § 264.74(b) this time period is extended automatically during the course of any unresolved enforcement action regarding the facility or as requested by the Administrator:
 - 1) Records and data used to complete the Application for this Permit;
- d. Up-to-date copies of the following documents as amended, revised, and modified shall be maintained at the facility until final closure is complete and certified:
 - 1) The Permit and all attachments
 - 2) All approved permit modifications;
 - 3) Information required by 40 CFR § 264.1064(g)(6) for compliance with the organic air emissions standards for equipment leaks;
 - 4) Records required by applicable requirements of 40 CFR Section 264.1089;
 - 5) Records for all visual inspections and repairs conducted in accordance with the requirements of 40 CFR §264.1086(c)(4).
 - 6) Documentation of compliance with permit conditions II.F, Subpart CC Requirements;

and

7) Other environmental permits.

II.D.3. The Permittee must submit monitoring data as soon as feasible and no later than sixty (60) days after receipt of a written request by the administrator. If by the end of the sixty- (60) day period the requested data have not undergone data validation, the Permittee must submit the requested data in raw form if the Administrator requests it. The Permittee must identify all submitted data that has not undergone data validation.

II.E. ORGANIC AIR EMISSION STANDARDS FOR EQUIPMENT LEAKS

II.E.1. For equipment subject to the requirements of 40 CFR Part 264 Subpart BB that contains or contacts hazardous waste with an organic concentration of at least 10 percent by weight for less than 300 hours per calendar year, the Permittee must record identification, either by waste or location (area or group), in the facility operating record.

II.E.2. The Permittee's operational logs for equipment subject to the Subpart BB standards must contain at a minimum the information listed in the example logs in Attachment D-5 of Permit Attachment BB. The logs may contain additional information at Permittee's discretion.

II.E.3. Prior to operating a piece of equipment subject to the 40 CFR Part 264 Subpart BB standards for 300 hours or more during the year, the Permittee must submit a request for and obtain a RCRA permit modification authorizing operation for 300 hours or more.

II.F ORGANIC AIR EMISSION STANDARDS FOR CONTAINERS

II.F.1. Prior to using containers that would be subject to the level 2 or level 3 requirements of 40 CFR Part 264 Subpart CC, the Permittee shall apply for and obtain a permit modification under §270.42 and provide specific Part B information required

pursuant to 40 CFR Part 270.27, as applicable, with the modification request.

- II.F.2. The Permittee shall control air emissions from the hazardous waste container storage areas specified in Part III of this Permit in accordance with provisions of 40 CFR §264.1082, 40 CFR §264.1083 and 40 CFR §264.1086.
- II.F.3. The Permittee must inspect containers to ensure compliance with Subpart CC standards when containers are received from off-site in accordance with 40 CFR Section 264.1086(c)(4).
- II.F.4. Permittee must monitor use of the filter control device on the aerosol can puncturing equipment to ensure that the filter is replaced according to manufacturer's specifications: when the maximum number of cans has been punctured or the expiration date on the canister has passed, whichever is soonest.
- II.F.5. Manufacturer's information on the filter control device required by condition II.F.4 must be maintained in the operating record until the air emission control equipment is replaced or is otherwise no longer in service.

PART III - CONTAINER STORAGE

III.A. CONTAINER MANAGEMENT UNITS

The following areas, identified in Figure D-11 of Attachment CC, may be used for storage of hazardous waste in containers, subject to conditions in this Permit:

Container Loading/Unloading And Receiving Areas	Container Storage Areas
Load/unload area	Room 100 ignitable/flammable
Room 103, shipping and receiving	Room 102a corrosive, acid
Room 104, consolidation area	Room 102b corrosive, bases/ caustic
	Room 102c pending analysis
	Room 102d state-only and TC

PART IV -RECYCLING

IV.A. RECYCLING UNITS

For the purpose of this section, "Recycling Units" include: RU-PA-1 in the Ross paint shop, RU-CL-1 in the Ross PCB annex, and RU-CL-2 in the Ross PCB annex, as described in Table D-4 in Attachment CC of the Permit. This section also applies to any future "Recycling Units" that may be installed at the facility.

IV.B. STANDARDS FOR RECYCLING UNITS

For "Recycling Units" the Permittee must comply with Conditions II.E, ORGANIC AIR EMISSION STANDARDS FOR EQUIPMENT LEAKS, and II.F, ORGANIC AIR EMISSION STANDARDS FOR CONTAINERS, of this Permit.
